DESCRIPTION OF SERVICES (Continued)

II. Calculation of Distance

- A. Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.
- B. The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved.

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

INTEREXCHANGE TELECOMMUNICATIONS TARIFF

DESCRIPTION OF SERVICES (Continued)

III. Minimum Call Completion Rate

- A. Customers can expect a call completion rate of 98% during peak use periods for all Feature Group D Equal Access 1 + and 0 + Services. The call completion rate is calculated as the number of calls completed (including calls completed to a busy line or to a line which remains unanswered by the called party) divided by the number of calls attempted.

INTEREXCHANGE TELECOMMUNICATIONS TARIFF

DESCRIPTION OF SERVICES (Continued)

IV. Rate Period Overlap

- B. For messages which overlap one or more rate periods, the rate in effect for each rate period for each portion of the call is applicable.

- C. Subject to the billing increments set forth in this tariff, plus any additional charges which may apply, long distance usage charges are based on the actual usage of Excel's service. Usage begins when the called party picks up the receiver. When the called party picks up timing is determined by hardware answer supervision. Chargeable time ends when either party "hangs up" thereby releasing the connection. Excel does not bill for uncompleted calls.

V. Promotional Offering

- A. The Company may, from time to time, make promotional offerings to enhance the marketing of its service. These promotional offerings will be subject to approval by the Commission and shall have specific starting and ending dates.

Excel Operator Services

The Company's Operator Services is available throughout the State of California. Callers access the Company's Operator Services by dialing 0+ a 10 digit telephone number, 00 or a Company-provided access code or other Company-authorized access method. Upon receipt of the call, the Company may verify the credit-worthiness of the designated billed party. When a payment method cannot be validated, or is unacceptable, callers may be required to select an alternative and acceptable means of payment. Total charges for use of this service include usage charges and an Operator Assistance Service Charge, as set forth below. An Operator Dialed Service Charge also applies to calls in which the caller has the capacity to dial the number, but has the operator dial instead. Usage charges are based upon the duration of a call, and are flat per minute based, 24 hours per day, 7 days per week, during all Time-of-Day Rate Periods. The Time-of-Day Rate Periods are defined as follows:

- Day Rates are applicable to calls placed Monday through Friday from 8:00 AM to, but not including, 5:00 PM.
- Evening Rates are applicable to calls placed Sunday through Friday from 5:00 PM to, but not including, 11:00 PM; and on Carrier Recognized Holidays, unless a lower rate would normally apply.
- Night/Weekend Rates are applicable to calls placed Sunday through Friday from 11:00 PM to, but not including, 8:00 AM the following day, and all day Saturday.

Chargeable time begins when the Company receives signaling to detect that the network connection between the calling station and the called station has been established. Chargeable time ends when either party "hangs up" thereby releasing the network connection. For collect calls, chargeable time begins when the called station accepts responsibility for payment of the charges associated with the call. All calls are measured and billed in one minute increments; fractional minutes of use are rounded up to the next full minute.

A Service Charge is applicable to Operator Station-to-Station (including Sent Paid, Sent Collect, Third Number Billed or Calling Card), Person-to-Person (including Sent Paid, Sent Collect, Third Number Billed or Calling Card) and for Busy Line Verifications and Busy Line Interruptions. These charge(s) are in addition to the initial period and additional period per minute usage charges applicable to each call. When a call is subject to more than one Service Charge, only the highest Service Charge applies, unless indicated otherwise herein. Operator Assistance Service Charges vary depending upon the billing option selected by the caller. The following call placement options are available:

Sent Collect and Third Number Billed calls may not be allowed in locations where the Company does not have billing arrangement availability. To activate Station-to-Station Operator Services, the caller's dialing sequence could be: 0+ a 10 digit telephone number, or 00 (only), or any other Company-provided access method, to get an operator directly to request that a Station-to-Station call be placed.

- B. Person-to-Person - refers to when an end user requests operator assistance in reaching a specific person, department, extension, office, etc. The operator dials the number and stays on the line until the requested party is reached and conversation begins. The call may be billed as Sent Paid (calling party pays for the call), Sent Collect (called party pays for the call), or may be billed to a Third Number or Calling Card. Sent Collect and Third Number Billed calls may not be allowed in locations where the Company does not have billing arrangement availability. To activate Person-to-Person Operator Services, the caller's dialing sequence could be: 0+ a 10 digit telephone number, or 00 (only), or any other Company-provided access method, to get an operator directly to request that a Person-to-Person call be placed.

Operator Assistance Service Charges and Surcharge Descriptions: (Continued)

- C. Busy Line Verification - refers to those instances where the Company will provide operator assistance to determine if there is conversation ongoing on a called station. A Service Charge is applied to all attempts to verify the condition of a customer line, busy talking, busy not talking (e.g., off hook), except attempts which are unsuccessful due to network equipment failure.
- D. Busy Line Interruption - refers to those instances where the Company operator will interrupt an ongoing conversation on a called station. A charge will apply each time the Company operator attempts the emergency interruption whether or not the interruption is successful. A Busy Line Verification must be made and its service charge applied before an Emergency Interruption can be attempted. Once an operator has verified the line, and the called party has agreed to accept the interruption, the Customer is provided the option of completing an operator assisted call to the called station without hanging up or originating a separate call. Customers may accept or refuse the operator's offer to complete the call. Calls completed with the operator's assistance will be charged an additional Service Charge under Station-to-Station or Person-to-Person, as applicable. If the operator dials or completes the call to the verified telephone number for the Customer, the Operator Dialed Surcharge will also apply.
- E. Operator Dialed Surcharge - will apply to Station-to-Station and Person-to-Person calls when the Customer has the ability to dial all the digits necessary for call completion but dials instead "0", "00" or another Company-provided access code or other Company-authorized access method to reach a Company operator to have the operator place the call. This surcharge will be incurred by the Customer in addition to the applicable Service Charge. However, the surcharge will not apply to: (1) calls which cannot be completed by the Customer due to equipment failure or trouble on the Company's network; and (2) calls placed by parties identified as handicapped and who cannot complete the calls due to the handicap.

RULES (Continued)

Rule 2 - Undertaking of Excel

Excel's services are furnished for communications originating at specified points within the State of California under terms of this tariff. Service is provided twenty-four hours a day, seven days a week.

Excel is a resale common carrier. Excel's services provide intrastate long distance message telephone service to Customers for their direct transmission and reception of voice, data, and other types of communications. Excel may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities (such as the local exchange carrier), when authorized by the Customer, to allow connection of a Customer's location to Excel's service. The Customer shall be responsible for all regulated charges due for such service arrangement.

The Customer's monthly charge for service is based upon the total time the Customer actually uses the service subject to billing increments set forth in this tariff and any additional charges which may apply.

The rates and regulations contained in this tariff apply only to the services furnished by Excel and do not apply to the lines, facilities, or services provided by a local exchange telephone carrier or other common carrier for use in accessing the services of Excel.

RULES (Continued)

Rule 3 - Customer Application for Service

Customers wishing to obtain service must submit an authorization form used by Excel to instruct a local exchange company to establish one of the long distance companies under contract with Excel as the 1 + equal access dialing long distance service on the customer-specified telephone numbers. The form is merely a request for service and does not in any way bind Excel to service, nor does it bind the applicant to subscribe to the service.

Excel reserves the right to require all Customers to establish credit-worthiness to their reasonable satisfaction. Upon application for service, Customer shall be deemed to have authorized Excel to obtain such routine credit information and verification as Excel shall require in accordance with its then existing credit policies. All criteria and methods used in acquisition and assessment of credit related information shall be consistent and uniform for all applicants or Customers. Excel may not deny service for failure to provide a social security number; however, the Company may request other identification information sufficient to enable Excel to verify the Customer's identity and run a credit check. When Excel denies an application for a telecommunications service subject to Commission jurisdiction, the Company shall inform the applicant of the reasons within ten days thereafter. Excel's reasons shall be provided in writing unless the applicant agrees to accept another form of notice.

- B. Excel shall provide Customers initiating service with sufficient information to enable them to make informed choices among services, and shall clearly and conspicuously disclose in the course of the sale transaction the Customer's right to cancel a term contract. In an oral transaction, the right should be disclosed as well.
- C. Excel shall provide the Customer a written confirmation of the order at the point of sale for in person transactions, and, for any other transactions, not later than seven days after it is accepted, or seven days after Company is notified of the order originated through another carrier. The confirmation shall include the key rates, and terms and conditions for each service ordered.
- D. Customers may cancel without termination fees or penalties any new tariffed service or any new contract for service within 30 days after the new service is initiated. This rule does not relieve the Customer from payment for per use and normal recurring charges applicable to the service incurred before canceling or for the reasonable cost of work done on the customer's premises (such as equipment installation) before the subscriber canceled.
- E. The Company shall not make any change or authorize a different telephone corporation to make any change in the provider of any telephone service for which competition has been authorized for a telephone Customer without the Customer's authorization.
- F. When service has been canceled at the Customer's request the Company shall not re-establish service for that Customer without a new Customer authorization. RULES (Continued)

Rule 6 - Deposits

The Company may require a Customer to establish or re-establish service if an only if an applicant for service is unable to demonstrate acceptable credit tot he satisfaction of Excel. Failure to provide a social security number shall not be cause for requiring a deposit. The Company may not require for its own benefit a deposit for services provided by another carrier or refuse to accept a deposit in lieu of demonstrating satisfactory credit. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. A deposit may be required in addition to an advance payment. The deposit will not exceed an amount equal to:

- (A) Two (2) month's charges for a service which has a minimum payment period of one month;
or
- (B) The charges that would apply for the minimum payment period for a service which has a minimum payment period of more than one month; except that the deposit may include an additional amount in the event that a termination charge is applicable.

Any person or entity which uses, appropriates or secures the use of services from the Company, whether directly or indirectly, in any unlawful manner or through the providing of any misleading or false information to the Company and which use, appropriation, or securing of services is inconsistent with the stated uses and purposes of this tariff or any restrictions, conditions, and limitations stated herein, shall be liable for an amount equal to the accrued and unpaid regulated charges that would have been applicable to the use of the Company's services actually made by Customer.

If any portion of a Customer's payment is not received by the Company within twenty-two days after the date the bill was mailed, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment, a late payment charge shall be due to the Company. The late payment charge shall be the portion of the payment not received two business days prior to the next billing cycle, multiplied by 1.5%.

Late payment charges do not apply to the disputed portion of unpaid balances, if resolved in favor of the Customer. Any disputed portion of unpaid balances, if resolved in favor of the Company, may be subject to the late payment charge as of the original due date noted on the Customer's bill. Rule 12 - Continuity of Service

Without incurring liability, Excel may interrupt the provision of services at any time in order to perform tests and inspections to assure compliance with tariff regulations and the proper installation and operation of Customer equipment and may continue such interruption until any items of noncompliance or improper equipment operation so identified are rectified, in compliance with the Commission Rules.
